ISSUE 5,

WEDNESDAY, 12 AUGUST 2009

Break-dance improvisations opened the disco party organized for the Olympians after the first competition day. First on the dance floor was Stefan Tsarev from the Mathematical School who mesmerized the computer

geniuses with a several-minute-dance on the stage in the garden of Hotel Novotel Plovdiv.

Dance algorithms

The overall rankings from the first competition day are a strictly kept secret, but the teenagers are already aware of how they've done. Half of all Olympians managed to do two of the four tasks. None of the teams got the maximum score. Today the teams are at the start line for the second time.
